# **TSL Workshop**

## **Hand Therapy**

### **WKSH1 Duration 7 hours**

TSL is an Australian owned and managed business that adds value to Allied Health Professionals through its education and training workshops. These workshops are held at our premises and are a very successful way for us to share our knowledge with your staff resulting in a better understanding of the measuring, fitting and manufacturing processes.

WKSH1 is an introduction for Physiotherapists, Occupational Therapists and Allied Health Assistants that work in a Hand Therapy Unit.

The outline for the day is as follows:

- General overview of TSL business, various fabrics available and their function
- Various fabrics used up close
- Major Principles in designing TSL garments
- Graduated Compression and how do we apply it
- Research & Development
- How to design a pattern, how to cut and sew a garment and quality control
- Visit work room on site. View 1<sup>st</sup> hand how the garments are constructed.  
This will include pattern making, cutting & sewing demonstrations.
- Bio Med Sciences: Scar Management Range products review
- How various textiles may be added to enhance the performance of a custom made compression garment.
- TSL Hand Therapy Range includes:
  - Ready To Fit Compression Gloves
  - Ready To Fit Open and Closed tip Powernet Fingerstalls
  - Ready To Fit Open and Closed tip Neoprene Fingerstalls
  - Ready To Fit Open and Closed tip Silon Tex Lined Fingerstalls
  - Ready To Fit Powernet Tubular Fingerstalls
  - Ready To Fit Neoprene Tubular Fingerstalls
  - Ready To Fit Finger Flexion Straps
  - Ready To Fit Neoprene Wrist Wraps
  - Custom Made Neoprene Gloves
  - Custom Made Finger Flexion Gloves
