

Custom Made Abdominal Binder

Used for:

Abdominal Hernia

Incisional Hernia

Made with various powernet fabrics to provide pressure to extreme body shapes. Due to the fabric properties and texture, our abdominal binders do not simply push down on the affected area, but create an artificial wall to support the Hernia and surrounding area. Front panel is double thickness back opening is made of Velcro.

Easily donned and doffed for patient comfort and independence. Garment is easily laundered.
